English, Hindi, Kannada.

Versatile web developer with a proven track record in designing and implementing innovative web solutions. Proficient in front-end and back-end technologies, ensuring optimal functionality and user experience. Adept at collaborating with cross-functional teams, delivering projects on time, and enhancing the overall online presence. Dedicated to staying current with evolving industry trends and technologies.

Work History

2023-03/ current **HinduTrade, Software Engineer, Bangalore**

As a Web Developer at HinduTrade, I played a pivotal role in crafting dynamic and user-centric websites. Collaborating with cross-functional teams, I implemented innovative solutions, ensuring seamless functionality and optimal user experiences.

Proficient in front-end and back-end technologies, I contributed to the development of responsive, visually appealing interfaces. My responsibilities included code optimization, troubleshooting, and staying abreast of industry trends. Successfully delivering projects within deadlines, I demonstrated adaptability and problem-solving skills.

My tenure at HinduTrade honed my ability to create robust web solutions, solidifying my commitment to excellence in web development.

2022-08/2023-02 **Built Design, Web Developer, Hyderabad**

Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.

Reviewed project specifications and designed technology solutions that met or exceeded performance expectations. Coordinated with other engineers to evaluate and improve software and hardware interfaces.

Partnered with development team on product development and application support plans.

Analysed proposed technical solutions based on customer requirements. Coordinated efficient large-scale software deployments. Tested methodology with writing and execution of test plans, debugging and testing scripts and tools.

2021-2/2022-07 **Software Engineer, OVI Hosting, Bangalore**

UI Components Designing & Application Interface Coding

Identified web-based user interactions and developed highly-responsive user interface Components via React Concepts. Translated Designs & wireframes into high-quality code and wrote application interface code via JavaScript following React.js workflows.

Code Debugging & Front-end Architecture

Troubleshot Interface software and debugged application codes to improve functionality and performance by %0%.

Developed and implemented front-end architecture to support user interface concepts.
